SKILLS Javascript | React | Redux | HTML | CSS | Python | Flask | Express | Node.js | SQL | PostgreSQL | SQLAlchemy | Sequelize | Alembic | Docker | Git

PROJECTS

InstaGame (JavaScript | Python | React | Redux | Flask | Alembic | Docker)

[Live Site](#) | [Github](#)

Web app that is a loosely based clone of Instagram built with Python with Flask / PostgreSQL and Javascript with React / Redux

- Backend built using Python with Flask / Postgresql to handle all the database needs to provide users with a smooth experience
- Frontend built using React / Redux to render a dynamic and intuitive site for users to enjoy posting images and commenting on different images from different users

Petsy (JavaScript | Python | React | Redux | Flask | SQLAlchemy | Alembic | Docker)

[Live Site](#) | [Github](#)

Web app that is a loosely based clone of Etsy built with Python with Flask / SQLAlchemy and Javascript with React / Redux

- Worked as a group to build from backend to frontend to create an app that runs smoothly without bugs
- Used Python with SQLAlchemy and Alembic to create a backend that handles all the different tables needed for the site to operate smoothly
- Built an interactive app with React / Redux that gave users an intuitive experience. Ensured users' privacy to add products to their own cart through their login with their own authentications.

HomeBnB(JavaScript | Express| React | Redux | PostgreSQL)

[Live Site](#) | [Github](#)

Web app that is a loosely based clone of AirBnB built using Javascript with React / Redux / Express

- Created a site where users can create spots and reviews on spots using React / Redux to render
- Built a backend using PostgreSQL / Express to handle spots and reviews that users create

EXPERIENCE

CVS Health

Hayward, California

Store Manager

February 2018 – August 2020

- Led a team to hit over 100% of sales goal for each fiscal year
- Built-up employees that worked efficiently and contributed to hitting goal percentages

EDUCATION

App Academy

San Francisco, California

Curriculum of Study in Web Development (Python and JavaScript)

September 2021 - April 2022
